Author: Itsaya

Explores the delicate balance between remembering and forgetting, showing how our connections with others shape us—sometimes in ways we don't realize.

While someone may be
an important part of our memories,
we, too, may be a cherished memory
in someone else's life.

.

As we struggle to forget someone,
we ourselves may already be fading
from another's recollection.

.

We are constantly remembered and forgotten.
In the end, no one can remember us 100%,
just as it is impossible for us
to forget someone completely.

.

What we can do is...
leave good things for others to remember us by,
and create beautiful moments
in the time we share together.

.

This book invites us to revisit certain things—certain stories, certain people we remember clearly, and others we may have misplaced somewhere along the way.

You don't need investors, factories, or millions. You need courage, clarity—and a kitchen.

The book is titled Billionaire in a Kitchen, written by **the founder of REO's Deli**, a Thai food brand best known for its baked spinach with cheese, now distributed in over 10,000 7-Eleven stores nationwide and preparing for an IPO.

What makes this book particularly relevant is that it is not a conceptual or motivational business book. It is a case study told by the founder himself, detailing how a business grew from a small kitchen behind a house into a nationally scaled brand—without starting capital, major investors, or privileged access.

A key takeaway from this book is its emphasis on *clarity of direction*. Rather than focusing on speed or short-term gains, it highlights the importance of having a clear goal and making consistent decisions aligned with that goal—an approach that is highly applicable not only to entrepreneurship, but also to organizational strategy and leadership.

Chana Wasuwat is a **Founder & CEO, Value Sourcing Co., Ltd. (VSC) and Founder of REO's Deli.** From a *simple spinach-and-cheese dish* made in his wife's small restaurant kitchen, Chana transformed a household recipe into a 100-million-baht-per-year business, now aiming for billion-baht scale. He is a respected voice in Thailand's food business ecosystem, frequently invited to speak, train, and mentor SMEs, and is actively shaping the next generation of entrepreneurs.

A stream-of-consciousness novel that explores motherhood and otherness.

The story of **Lallana**—who is both a mother and a man. In a year of transformation, shifting from child to mother, from marriage to divorce, from woman to man, he meets another man. **On Song Wat Road**, that man opens his door to him with kindness.

My beloved child,
If your father left a ring mark on your mother's left ring finger,
And you left cracks upon her belly,
Then he, too, has left a lasting inscription.

"You're like the North Star, Senior."
"Really? How so?"
"The North Star, or Polaris, is a bright star in the Little Bear constellation. It is a star located near the North Celestial Pole, aligned as a perpendicular axis, so it is a star that never sets. The North Star stays right there, still. And do you know that the North Star is much brighter than the Sun, and also much larger if you compare them up close? ...It looks small and is relatively hard to find, because the Earth and the North Star are too far apart for the imagination to grasp. And the North Star isn't actually a solitary star, even if we can't see it from here..."

PLUTO

Author: ChaOplaNoy

The story of haunting exploration of desire, deception, and the perilous line between sympathy and true love.

I, **'Ai-oon'**, was asked by my twin to break up with her ex on the day she was about to enter the bridal chamber. Because we look alike, she thought it would be easier if I were the one to do it. At first, I didn't really care. But then my younger sister got into an accident. Whether it was out of sympathy or guilt, it made me go and do as she asked.

But... the moment I met that ex, I became speechless right away when I saw **'Methawee'**, a blind woman who wasn't even remotely my type. And yet, just from meeting her, it was as if I fell into a trance of love. Instead of breaking up, I ended up confessing my love and impersonating **'Ob-oum'**, my twin sister, just because I wanted to stay close to her. Don't ask me why I did that. Was it pity? Probably not. Was it compassion? Far from it. All my life, I've broken up with 18 men simply because... kissing them didn't make me feel anything. But with this woman, it was different—kissing her made me tremble, made me shiver with desire.

But what should I do now? Methawee loves me, but thinks I'm my twin. If this love is exposed, the two of us will surely end. And I... will be nothing more than Pluto in the solar system—once there, but forgotten. And being forgotten is the same as... never having existed at all.

THE RULE OF BEING A VILLAIN
IS NOT TO FALL IN LOVE

OCTOBER 2024
ALL RIGHTS AVAILABLE

A captivating story that flips the script on classic melodrama

"The first rule of being a villainess who transcends dimensions is to never fall in love with the heroine. But sadly, because rules are never set in stone."

If the term "Pick me girl" is what some people secretly call **'Darinya,'** then the nickname **"Villainess in the trash bin"** would undoubtedly belong to **'Methavi'** without a doubt. She loves him, but he rejects her. We hate each other... so let's just slap it out and get it over with, okay? It's common to see two women hating each other over a single cucumber. She cries, she gets fierce back, and a small-scale war goes on for months. But who would know that between us, we each have a 'secret' hidden?

Rule one. Methavi is the one who transcended dimensions into the role of a villainess in a novel.
Rule two. In the end, the person she's been secretly eyeing isn't the male lead, the straight guy, but the crying female lead instead.
Rule three. The owner of the anonymous ID 'RabbitSleep,' the online best friend Darinya chats with every day, is actually her.

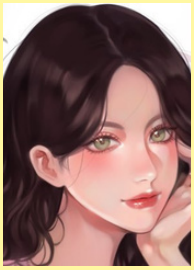

Melody45: Why did you name your ID Rabbit, by the way?
RabbitSleep: Because...it reminds me of someone. :)
